IN RE: Application of Network Operator )  
Services, Inc. for a Certificate ) ORDER GRANTING  
of Public Convenience and Necessity ) WITHDRAWAL OF  
as an Alternate Operator Service ) APPLICATION AND  
Provider in the State of South ) CLOSING DOCKET  
Carolina. )

This matter comes before the Public Service Commission of South Carolina (the Commission) by way of an application filed on June 12, 1989, by Network Operator Services, Inc. (NOS) to provide alternate operator services in the State of South Carolina. The application was processed by the Commission in accordance with established procedures.

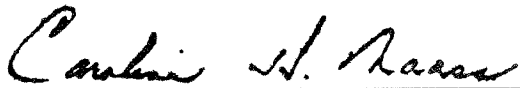

By letter dated July 26, 1989, the Commission was informed on behalf of NOS that it wished to withdraw its application for a certificate of public convenience and necessity in the instant matter since the Company was not originating telecommunications traffic in South Carolina but merely terminating traffic. The Commission has considered the request to withdraw the application

of Network Operator Services, Inc. and finds that it is not necessary for NOS to seek certification to terminate calls in South Carolina. However, should the Company seek to originate traffic in South Carolina, then the Commission would advise that it would be appropriate at that time for the Company to file an application for the origination of intrastate telecommunications traffic.

Therefore, the Commission will allow the Company to withdraw its application in this matter and the instant docket is hereby closed.

IT IS SO ORDERED.
